ABOUT ME

Full-Stack Developer with expertise in HTML5, CSS3, JavaScript, React, Tailwind CSS, Node.js, Express.js, and MongoDB. Experienced in building responsive, user-friendly web applications and managing end-to-end development processes. Quick learner and problem solver, passionate about delivering efficient solutions and contributing through projects, freelance work, or professional opportunities.

PROJECTS

April 2025 - Present

Resturant Website-Using Mern Stack

- Designed and developed La Cuisine, a modern and responsive restaurant website using React and Tailwind CSS.
- Built an interactive menu showcase with smooth navigation and user-friendly booking features.
- Implemented login and signup functionality for users and an admin dashboard to manage menu items, reservations.

Taskly (Task Management App)

- Built a task management application using React and Context API.
 - Implemented features to add, edit, and track tasks, with real-time state management.
 - Designed a clean and responsive UI using Tailwind CSS.
-
